

Fall 2022

School Survey Snapshot

Our school administered surveys to measure student, staff, and family perception of factors pertaining to school climate and student life skills. Below are some of the main take-aways and how we plan to use this data!

Glow

- Our district is taking steps towards increasing school climate awareness through CKH and Restorative Practices. We hope to see the positive impact on our school climate perception from family, student and staff lenses. Our school has developed a focus on school climate based on Panorama Survey results.

Grow

Overall, the Panorama Survey, shows that 36% of students response favorably in the 6-12 setting.

Goals

1. We will improve school climate data based on staff and student report by the spring 2023 survey administration by 5%.

Action Steps

BHAT team will share the CASEL rubric and Panorama Data with whole staff.

Staff and students will work collaboratively to build a Social Contract.

BHAT team will create Great News Cards as a kick off to promote positive climate.

Staff will implement class launches to build community in their classroom.

Staff will participate in Restorative Practices professional development.
